

Table Tennis Queensland Computer Ratings 14 April 2002 following Rockhampton and Wynnum Opens

Key points on how the ratings work

- Includes all results from singles events at Open Championships, State Championships, and inter-club team matches such as the SEQ Pennant.
- Your rating improves when you win a match and the amount depends on the difference between your rating and the loser's rating. The loser's rating will be reduced by a similar amount.
- The status of the event and the stage of the event are not considered.
- No incentives or weightings are given for playing more often as this reduces the accuracy of the list.
- Players are not included on the ordered list, if their uncertainty is greater than 95.
- Uncertainty is based on the time since last played, the number of matches and the uncertainty of opponents.
- Uncertainty is technically the standard deviation of the estimate of the player's rating.
- This can be explained in simple terms by saying that the actual playing strength of a player with rating 1500 and uncertainty of 50 is likely to be between 1450 and 1550.

Purpose of Ratings

- The ratings, rather than the order, are a guide to a player's current standard. For example, a player on 1684 may strive to reach the 1700s.
- Tournament organisers may wish to consider the ratings when seeding draws. However it is recommended that other issues are considered particularly for players not on the list.
- Officials grading players for tournaments and inter-club matches can compare standards. The following is a guide to grades that a player would normally be eligible for. These cutoffs are only suggestions and are not TTQ policy.

Rating	Range	Grade
< 2556	476	Open
< 2080	310	Special
< 1770	190	Reserve
< 1580	220	B
< 1360	434	C

Avoidance of Errors

In order to minimise the risk of error, it is important that Associations running tournaments ensure the following.

- Include players first names in full at least once on the results sheets. There are many pairs of players with the same initial and surname. Mix-ups have occurred in the past
- Ensure that, if a match was not played, the score is indicated as a walkover (w/o). These will not be included in the calculations.
- If a player forfeits during a match, the score is indicated. For example if a player withdraws when the score is 5-5 in the first game, the score is indicated as 21-5, 21-0. These will be included in the calculations.

Any questions or suggestions can be forwarded to Andrew Martin 0411 105 248 or amae@bigpond.com.

Results of Rockhampton Open including team events

Player	Old rating	Old uncertainty	Matches	Change	New rating	New uncertainty
