

Table Tennis Queensland Computer Ratings 8 May 2002 following Brisbane Open and Old Closed

Key points on how the ratings work

- Includes all results from singles events at Open Championships, State Championships, and inter-club team matches such as the SEQ Pennant.
- Your rating improves when you win a match and the amount depends on the difference between your rating and the loser's rating. The loser's rating will be reduced by a similar amount.
- The status of the event and the stage of the event are not considered.
- No incentives or weightings are given for playing more often as this reduces the accuracy of the list.
- Note: The rating of new players is estimated as 1455 with a standard deviation of 260.
- This standard deviation reduces gradually as they play more matches.
- Standard deviation can be explained in simple terms by saying that the actual playing strength of a player with rating 1500 and uncertainty of 50 is likely to be between 1450 and 1550.

Standard deviation	Accuracy
1 - 50	good
51 - 72	okay
73 - 94	estimate
95 - 260	not accurate and not published

Purpose of Ratings

- The ratings, rather than the order, are a guide to a player's current standard. For example, a player on 1684 may strive to reach the 1700s.
- Tournament organisers may wish to consider the ratings when seeding draws. However it is recommended that other issues are considered particularly for players not on the list.
- Officials grading players for tournaments and inter-club matches can compare standards. Included in the lists are suggested ceilings for each grade that can be used as a guide to grades that a player would normally be eligible for. These ceilings are only suggestions and are not TTQ policy.

Avoidance of Errors

In order to minimise the risk of error, it is important that Associations running tournaments ensure the following.

- Include players first names in full at least once on the results sheets. There are many pairs of players with the same initial and surname. Mix-ups have occurred in the past
- Ensure that, if a match was not played, the score is indicated as a walkover (w/o). These will not be included in the calculations.
- If a player forfeits during a match, the score is indicated. For example if a player withdraws when the score is 5-5 in the first game, the score is indicated as 21-5, 21-0. These will be included in the calculations.

Any questions or suggestions can be forwarded to Andrew Martin 0411 105 248 or amae@bigpond.com.

News

Brisbane Open most improved player: Nelson Huang

Brisbane Open best new player: Jose de Leon

Qld Closed most improved player: Brian McDonnell

Qld Closed best come-back player: Helen Barnett

For those men not placed on the official selector's top 10 Order of Merit, I have listed their computer generated Order of Merit. This is based on results of Open Singles and Teams events at the Qld Closed only and includes all those with at least 10 matches.

Order	Player
11	Paul Green
12	Nathan Hurst
13	Gavin Lane
14	Brad Harriott
15	Robert Hilan
16	Janson Tran
17	Yasu Okamaida
18	James Sung
19	Peter Easling
20	Tony Herbert
21	Barry Shimmin-Clark
22	Glenn Mann
23	Andrew Martin
24	Michael Ruhl
25	Joseph Clifton
26	Craig Ottaway

TTQ Women's Rating Order List

Name	Rating	Accuracy	Order
Peri Campbell-Innes	2083	okay	1
Claire Campbell-Innes	1909	good	2
<i>Suggested ceiling for Reserve grade events</i>	1750		
Helen Barnett	1729	okay	3
